

Gauges

GUAGES

DESCRIPTION

1. ADU2341 Speedo 90mph with 3.4 final drive, 140kph with 3.4 final drive-ADU2343, 90mph, with 3.76 final drive-ADU2345.
2. 134H4442 Speedo 130 mph with 3.4 final drive.
3. 134H4444 Speedo 200kph with 3.4 final drive.
4. 2A42702 Original black Cooper 'S' speedo housing, (a) oval beading-14A9907, Temp guage, in black-13H4460, magnolia-13H4460MG.
5. S1B120 0-80x100 80mm wide electronic impulse tachometer with chrome bezel and full wiring diagrams, magnolia-S1B120MG.
6. S1B122 0-1000x100 80mm distributor/coil sensed tachometer, magnolia-S1B122MG.
7. S1B800 POD for 80mm tachometer black, in chrome-S1B801.
8. S1B220 Voltmeter/Ammeter in black, in magnolia-S1B220MG, (a) Ammeter with 60-60 scale-S1B320, in magnolia-S1B320MG.
9. S1B521 Oil pressure guage-0-100lb/in" with connecting pipe for mechanical fittings, for magnolia-S1B521MG
10. S1B110 Electronic clock, in magnolia-S1B110MG
11. S1B420 Oil temperature guage mechanical fitting, in magnolia-S1B420MG.
12. S1B422 Water temp 30-110 degrees centigrade with 6"6" capillary mechanical fittings. In magnolia-S1B422MG.
13. S1B130 Dual oil pressure/water temp guage with all fittings, in magnolia-S1B130MG
14. TIM004 Ammeter guage with 60-60 amps grading for use with alternator only, 6 or 12 volt neg or positive.
15. TIM005 Water temp guage with 40-120 degree centigrade calibration, with 57" capillary metal tube.
16. TIM006 Oil pressure guage 0-100 lbs calibration, copper pipeline and T piece fitting.
17. TIM007 Battery voltmeter guage, warns you of electrical or charging defects, low battery condition.
18. TIM008 Vacuum performance guage, mechanical movements and colored segments indicating performance with 0-30 ms/hg scale.
19. TIM011 Tachometer with 0-80 RMPx100 scale 80mm (3&1/8") diameter pod mounted for fitting under dash. Easy to fit suitable for 4, 6, 8 cylinder with negative earth for petrol engines only.
20. TIM014 Tachometer 0-8 RMPx1000 scale, 52mm diameter. Easy to fit suitable for 4, 6, 8 cylinder with negative earth for petrol engines only.
21. TIM023 Chrome bezel to fit all 52mm gauges only.
22. TIM034 Electrically operated temp gauges with 0-12 centigrade scale, for neg earth only.
23. TIM039 A dash mounting pod to hold any 52mm guage.
24. TIM002 Time clock with second hand. Quartz mechanism, negative earth only.
25. LMA017 Adaptor for oil guage if a plastic guage hose is preferred to original metal type.
26. Stewart Warner a water temp 40-110 centigrade-SWG505, b. oil pressure-0-100lbs scale-SWG506, c. oil temp 40-150 centigrade-SWG509, d. Tachometer 0-100x100 80 mm-SWG511, e. Tachometer 0-100x100 stainless steel 80 mm-SWG511 1ST, f. turbo boost plus/minus 30 psi-SWG527.
27. C-STR1058 80mm mechanical tachometer kit. Driven directly from the end of the camshaft. The most accurate way of counting rpm. Does not get interferred from other signals. 0-10,000 rpm, comes with tachometer, 48" drive cable, mounting boss, special Oldham coupling, cam nut, and relevent screws.
28. OL Five foot plastic oil pipe.
29. OVA Angled oil pipe adaptor for fitting in confined spaces to eradicate damaging oil pipe.
30. OA Oil guage adaptor for fitting into block or T piece.
31. TP Piece for fitting to block enabling oil guage and switch to be used together.
32. HPSI Oil pressure switch that triggers off when oil press. drops below 22lbs, oil pressure adjustable switch that activates between 15-60lb as required-HPS3. Standard replacement oil switch that activates at about 7-10lbs-GPS133.
33. DP1 Magnetic sump plug with extension to collect all magnetic debris in the gearbox.
34. TE5 Temperature guage adapter for fitting cylinder head or thermostat housing with take off. Already supplied with TIM gauges, but useful for SMITHS and other makes.
35. TIM021 Chrome 52 with single hole. Chrome with two holes-TIM022.
