

## Tires

### NO. PART NO. TIRES

### DESCRIPTION

1. TYRE09 Colway MS Knobby 165x10. Good for muddy stages, grass tracking or wintry snow conditions, soft wall.
2. TYRE07 Falken 165x70x10 (OHTSU from Japan)
3. TYRE01 Falken 165x60x12
4. TYRE15 Yokohama A032-R, 165x70x10. Aqua tusk tread design to increase traction in the wet. This simetric tread pattern and advanced high grip tread compound improves braking and cornering performance.
5. TYRE02 Yokohama A008 175x50x13. High performance, competition grade tire with asymmetric tread pattern.
6. TYRE091 Yokohama A510, 165x60x12. Unique tread pattern, great for wet or dry. Improved cornering and tread life.
7. TYRE08 Yokohama A008, 165x70x10. The A008 specification is every serious Mini owners's favorite 10" tire.
8. 205/50-10 Low profile Titan tire. An inch lower and an inch and a half wider than anything we've had before with deep aggressive tread!
9. HOOSIER-10 165/70-10 RACE TIRES This is the tire to beat in vintage racing or autocrossing when slicks are not appropriate. They are 165/70 (bias ply) in size, but when mounted on a wheel look much wider.
10. PIRELLI/12 Pirelli P3000, 145x70x12 tire.
11. TIRE12 Nankang 145/70-12 tire.
12. TIRE03 OHTSU 165/70-10 tires. These Japanese-made steel belted radial Ohtsu tires are made to last. 4.5" minimum wheel width is necessary to run 165 tires.
13. FALKEN/12 Falken tire 165/60-12
